Fire Alarm Annual Testing:

Monday, July 29th, 9:00 am - 2:00 pm

Please be advised that on the date and time indicated above, Mountain Alarm will be on site to perform an annual fire alarm inspection on the building. This is being done in conjunction with the management company.

During this inspection, we will need access to every unit in the building. Every room in your unit will need a visual inspection to see components of the fire alarm system. Sirens and strobe lights will be sounding from time to time. If you have a pet, please put them in a bedroom or bathroom and inform the building manager. If you have rekeyed your unit please insure manager has new key.

These inspections are required by the local fire marshal, fire codes, and national standards. With your help, we can get the required inspection done with as little as possible discomfort to you. We would like to thank you in advance for your help and understanding. Question or concerns? Please contact the manager.

Stay Awesome,

Danny Marez
